Zachary and Samu:

Between 12:30 - 1:20

Worked on the single page proposal

Worked and practiced on the preliminary project presentation.

We have met with Professor Adel 3 times over the past 2 weeks to discuss the project. Also cleaned/sanitized Adel's lab.

Adel gave us a plethora of material to read through for this project. Nate organized it into which ones each person should read.

The format for this will change for next time.
